Introduces

“FREIGHTMASTER”

Once again, the leaders in American made Mobility Solutions introduce a new product designed to easily mount and move large freight containers across pavement and warehouse floors.

Standard Features:

- Hot Forged Steel Swivel Head Construction
- ¾” Heavy Duty axle with Locking Castle Nut
- Polyurethane tread molded to Cast Iron core with Tapered Rolling Bearing
- Heavy Duty 4-Position Swivel Lock
- Deck mount twist lock welded in place
- *Universal Wheel Brake option also available

Wheel Diameter	Tread Width	Load Capacity	Overall Height to Bottom of Container	Swivel Radius	Approx Unit Weight
6"	3"	3000 lbs	12 1/2 "	5 1/2 "	49 lbs
8"	3 "	6000 lbs	13 1/2"	6 1/2 "	51 lbs.
